Headquarters Tactical Air Command
Langley Air Force Base, Virginia
Chief, Geographic Research Area, ORR

Stick-up Sheets Featuring Military Silhouettes.

1. This is in reply to your letter of 12 April 1954 addressed to Mr. Otto Guthe. Mr. Guthe was out of the city at the time your letter arrived, and since his return he has asked me to reply to you.

2. Enclosed are samples of stick-up sheets featuring military silhouettes and symbols used in the cartographic activities of this office. It has been our experience that it is impractical and uneconomical to attempt to obtain such items from commercial sources, and we have, therefore, developed and produced them within our own facilities. You will note that the attached samples have been produced in a number of sizes to permit their use in the production of cartographic and graphic presentations of various scales.

3. We would be able to supply you with reasonable quantities (up to 25 copies each) of any of the attached samples. If your requirements exceed this quantity or would require the development of new symbols, it would be necessary to have an official requisition through Air Force channels.
